Full stack web developer with strong graphic design experience who seeks to build responsive web apps that solve complex problems. Recently earned a certificate in full stack development from the University Coding, with newly developed skills in JavaScript, CSS, React.js, web scraping. I'm known as an innovative problem solver passionate about developing apps, with a focus on mobile-first design and development. With each project, my goal is to provide simple solutions to complex problems that utilize the entirety of the tools at my disposal. I'm excited to leverage my skills as part of a fast-paced, quality-driven team to build better experiences on the web.
